

Christmas Plus a True Yorkshire Family Business

Our Company

Christmas Plus was founded in 2003 by Paul Mitchell who has 12 years previous hands-on experience and 30+ years in the festive lighting industry. We specialise in all aspects of a successful lights display which include Site Surveys, Infrastructure Testing, Design, Manufacture, Project Management, Installation and Dismantle Service.

Over the last 20 years we have built good working relationships with many Towns, Parish Councils and Businesses and have been able to help them achieve or enhance their displays. Our clients benefit from a bespoke service that is tailored to their requirements.

Christmas Plus Ltd will provide the professional service of a large multi-national organisation, but with the friendly working relationship of a true family business with Vision, Passion and Commitment to deliver products and services safely, efficiently, on time and on budget.

Technology

With lighting technology continuously developing we regularly introduce new innovative products to our ranges. We have the benefit of working with a small number of reputable manufactures and suppliers in the UK, Europe and the Far East. This allows us to supply not only the very latest, but also the very best quality products.

Environmental Responsibility

Environmental responsibility to protect the environment from different forms of degradation which have negative impacts on living and non-living things is a fundamental way to how we conduct business. In 2021 we purchased the latest electrical drive access equipment which saves Tonnes of CO2 per year and we use non-invasive fixings to secure tree fittings, we also hold a trade waste certificate.

Contents

- 1 Site Survey and Design Service
- 2-3 Installation and Dismantle
- 4-17 Column and Wall Features
- 18 Bright Ideas Competition
- 18 Bespoke Motifs
- 19-23 Cross-Street Features
- 24 3D Features
- 24 Selfie Opportunities
- 25 Artificial Trees, Spheres and Victorian Lanterns
- 26 Architectural Lighting
- 27 Pulstars, Snowfall Strips, Harness and Lamps
- 28 OS Lighting Range
- 29 Clusterline and Icicles
- 30 Christmas Tree Installation
- 31 Branch Wrapped Tree Installation
- 32-33 TwinklyPRO
- 34 Safety Testing and Repairs
- 35 Bunting and Flags

Site Surveys and Design Service

Site surveys allow us to collect information and offer suggestions on suitable products, installation solutions and assists in the design layout of your display.

With no creative concept out of reach, our in-house design team can present ideas based on the survey results, themes, preferred colours, size limitations, weight limitations and budget.

Our design team can also create computer generated visuals to give you an in-sight on the impact your display can have using a variety of themes or colours.

Professional and Dependable Installation and Dismantle Service

Christmas Plus provides an Installation and Dismantle service that is tailored to each individual site. Work is carried out using our own teams who are all fully trained in the industry standards and current Health and Safety Regulations.

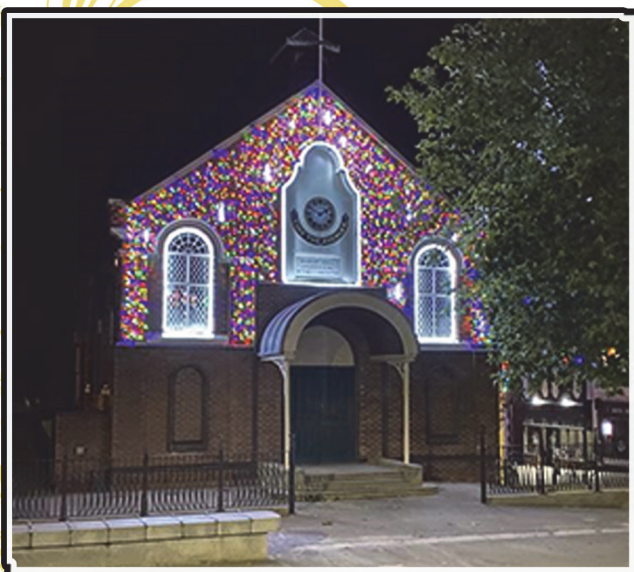

Key Aims

- * Project is delivered safely, efficiently, on time and on budget.
- * Cause no or minimum amount of disruption on the Public Highway.
- * Comply with current and relevant safety regulations.
- * To work in a safe environment.

At Christmas Plus we offer:

- * Free Site Surveys
- * Proposals fully documented
- * Full Health and Safety Pack
- * Installation carried out by experienced staff
- * G39 Standard approved
- * Project managed at every stage
- * Support both during and after season
- * 24hr Emergency Contact

Switch-on Events can be trouble free with our reliable RF Remote system, allowing you to have safe on/off control of your display via remote.

Health and Safety

Health and safety is paramount to Christmas Plus and we go above and beyond to ensure we are compliant with safe working processes.

We are members of the Institution of Lighting Professionals (ILP) and follow their guidance on safe installations, we are also one of the few registered HERs Christmas Lighting Company's and are accredited by CHAS (Contractors Health and Safety Assessment Scheme)

Accredited Contractor
CHAS.co.uk

Each installation team has a competent first aider, a G39 trained operative, IPAF trained operative, NRSWA Trained operative and will be managed by a IOSH Managing Safety Officer.

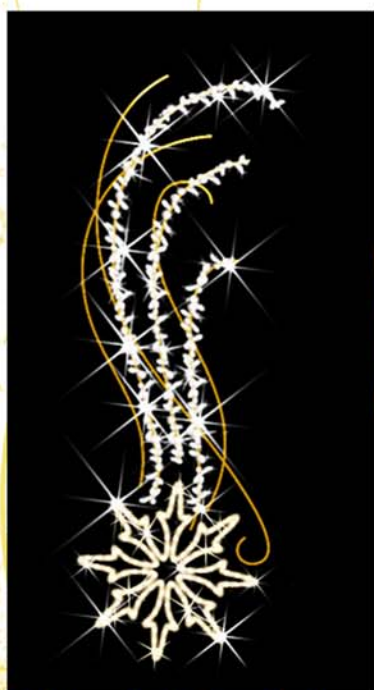

For added guarantee and peace of mind, Christmas Plus carries extensive Public and Product Liability and Professional Indemnity Insurance.

Customise your display.

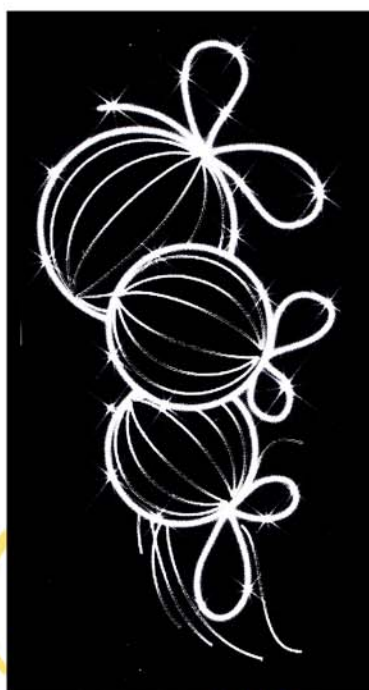

Ropelight and light strings are available in a variety of colours and can be changed on most features.

3D Features

Introduce a third dimension to add the **extra WOW factor**.

3D features can be manufactured to be mounted on columns, walls or to be free standing.

We have a library of designs available in a range of colours, shapes and sizes and can be tailored at your request.

Selfie Opportunities

Adding a selfie opportunity to your display is a fantastic way to gain exposure through social media and heighten footfall. Across this page are a small selection of our Selfie features.

Artificial Trees, Spheres and Victorian Lanterns

Heighten the impact in any location using a selection of our display enhancing Products

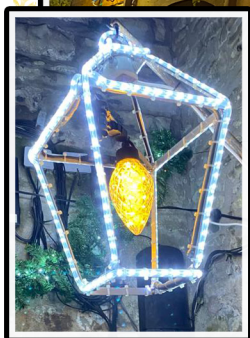

Artificial Trees

The traditional yet graceful appearance of our 5ft Artificial trees are a favourite with our clients. Manufactured with hardy bristles for outdoor use allows them to be used over and over again without losing their look and shape.

Complete the look by adding our 10m OS light strings which are available in a range of colours.

Victorian Lantern

A classic lantern shape with a Jewel lamp situated in the centre - Various colours available

Sphere

Add a little bit of sophistication to your display, hang our spheres from tree branches, overhangs and on buildings.

Brackets

Our specially designed heavy-duty brackets are suitable for supporting artificial trees, event flags and have a handy hook to facilitate spheres or hanging baskets.

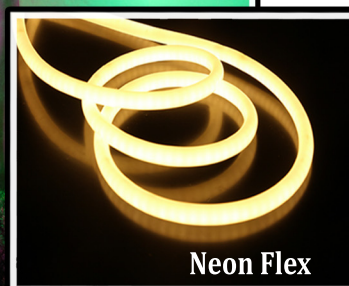

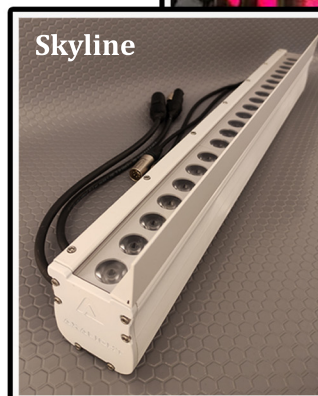

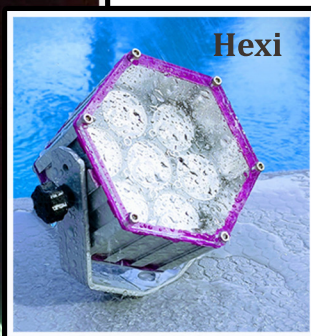

Architectural Lighting

Christmas Plus Ltd are a trading partner of AXALIGHT.

The AXALIGHT range is available in a selection of lengths, shapes and sizes, allowing for a variety of lighting configurations. These in turn are fitted with 36 degree lenses, as standard, other lenses are available, to add additional impact to any project.

The effect and richness of colour can be controlled via Wi-Fi for colour change and speed etc. Can be used to outline buildings, uplighting, wall wash, ground cover, tree illumination, dark spaces and park areas.

Tough, Reliable, Outdoor/Indoor There is also a 14mm diameter flexible option for more intricate shaping. Operates at Safe Extra Low Voltage & Flicker Free

Pulstars, Snowfall Strips, Lamps and Harness

Pulstars

Pulstars are an extremely bright pulsating star with the light chasing from the centre to the outer edges.

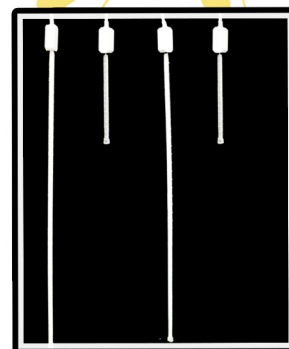

They are available in 240v with BC/B22 fitting, or 12v, 0.5m diameter or in a set of 3 x 0.2m diameter.

Snowfall Strips

Snowfall Strips emit double sided animated light with a soft falling effect. These are available in 240v with BC/B22 fittings 1.0m, 0.5m and 0.3m drop.

The 12v version is connected by use of a harness and are available in 0.5m and 0.3m drop.

Harness and Lamps

Christmas Plus supply a range of commercial grade harness, lamps and accessories. Please contact our team to discuss your requirements.

"OS" Lighting Range

Our OS Lighting Range has been custom manufactured to our own specifications and high standards. We use high quality LEDs to ensure long life, energy efficiency and a high intensity of colour. The commercial Grade-A rubber cable and silicone injected lamp base allows weather resistance and damage resilience. "OS" Ranges are also connectable allowing for longer lengths.

We have a wide range of OS lighting products readily available, such as Light Strings, Powerlites, Icicle Lights, Clusterline, Light Ceilings, Light Curtains and Net Lighting.

Powerlite

Each individual lamp consists of 5 ultra-brite LEDs, this gives a more intense appearance than any standard lamp. These can be used to create a stunning effect in trees, bushes, light ceilings or canopies.

Voltage : 24v Transformer required
Lamp Spacing : 50cm Cable Colour: Black
Colours available: White - Multicolour

"OS" Light Strings

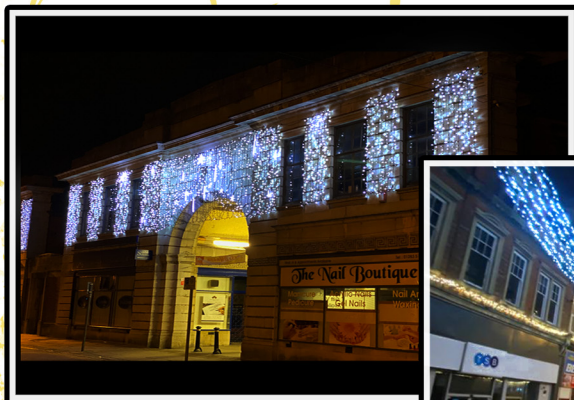

Each set of our 10m Light Strings have 100 bright LED lamps. Each lamp has a fluted lens which allows the light to dissipate from the light source to give maximum effect. These can be interconnected to allow extension and versatility.

Voltage : 24v / 240v. Lamp Spacing : 10cm Cable Colour : Black
Colours available : White - Red - Green - Blue - Warm White - Multicolour - White Twinkle.

Ceiling of Light and Light Curtains

Add extra sparkle, ambience and light to an area by using our light strings to create a Ceiling of Light running down a street or Light Curtains dropping from buildings. These features are not just for Christmas and can be used all year round.

Enhance these further by adding Pulstars or Snowfall Strips from our 'ST' Range.

"OS" Clusterline

Our Clusterline 6m strings have 300 Bright LED's spaced together to give the appearance for a fuller look.

These lights are an ideal way to create:

- *Lightweight column features,
- *Outlining buildings,
- *Cross-street Features,
- *Tree lighting ,
- *Adding additional sparkle and volume to your display.

Voltage : 240v and 24v (Transformer required)

Cable Colour: White

Colours available: White, Warm White, Multicolour and NEW Copper.

Can be interconnected to allow extension and versatility.

"OS" Icicle Lights

LED Icicle Lights 240v are situated on a 6m black rubber cable with 216 LED's.

The longest drop length is 1m

Inter-connectable from one power source.

Available in White or Blue

Christmas Tree Illumination

At Christmas Plus we specialise in all types of tree illumination using a varied choice of LED products to deliver the greatest effect.

Branch Wrapped Tree Illumination

Installation is carried out by our own team of fully trained climbers using specialised fixings which ensures that there is no damage to the tree.

Christmas Plus TwinklyPRO

For that extra special WOW+ factor choose TwinklyPRO

Manage and control your display via the TwinklyPRO App. Using the latest LED technology to map individual lamps, you have the ability to create virtually limitless colour palates and effects. The high-density smart LEDs also allow for text and/or graphics to be displayed making it ideal for Company Logo's or event promotions.

TwinklyPRO isn't just limited to Christmas and can be used for special events/days such as Valentines Day, St. Patricks, Halloween, Remembrance, Diwali, Eid or be used as sophisticated illumination over the summer evenings for Parks or High Street areas.

Christmas Plus is a Certified Installer for TwinklyPRO, ensuring safe and efficient installations are carried out by fully trained teams.

TwinklyPro can be supplied as:

- * Individual 25mtr String Set
- * Deciduous Tree Illumination
- * 3mtr long Light Tunnel
- * 3mtr wide Illuminated Archway
- * Column Mount Display Panels
- * Light Curtains
- * Cone Trees Of Various Sizes
-Much More

TwinklyPro product can be purchased as supply only or our Certified Installation Team can supply and install safely and efficiently including set up.

To turn your idea into a stunning LED lighting display contact Christmas Plus TwinklyPro team and arrange a free on-site survey.
